

Product Testimonial: Water Ionizer

I'm so pleased with my Water ionizer. Where do I begin, I'm a Holistic Lifestyle Coach and Respiratory Therapist and I've tried several nutritional supplements, detoxes, diets to resolve a rash that I've had for 10 years with little consistent success. After using the water ionizer at the high alkaline setting for **3 days I notice a significant improvement**. It's just about completely gone. Impressive! Also after 2 days the pain in my left forearm from a 4 month old muscle pull, started to tingle and **by the 4th day the pain was completely gone**. Now I can practice break dancing again with my two sons. Awesome!

Finally the pain that I felt in my knee when I play basketball (known as jumper's knee) has greatly improved. I'll test it out this Sunday by playing extra hard. My knee has not felt this strong and pain free in years, even after 3 months of physical therapy that I stopped because of lack of improvement. **The only complaint is from the opposing team due to my increase stamina on the ball court**. All this took place by drinking 1 - 1 1/2 gallons of alkaline ionized water per day throughout the day.

Product Testimonial: Water Ionizer

I went into the Sparrow Lab (on Saginaw in Lansing, MI), to have my blood drawn for my appointment. When the nurse stated to draw my blood, she said, "You sure do have a lot of oxygen in your blood". She said she could tell because of its bright red color. Most people that get their blood drawn have more of a maroon color blood.

I told her I have been drinking Ionized water for about a year. She wanted to know where I got it from and I told her just kiddy corner from the lab. She told me she planned on trying it as well.

Since drinking ionized water, I have noticed that I do not have the muscle cramping in my legs that I had before.

Product Testimonial: Water Ionizer

I purchased . . . just two weeks ago and am very pleased with my purchase. Within the first few days I was able to move to the highest alkalinity level and have noticed a clear increase in my energy levels, deeper more restful sleep, and less of a desire for animal protein. The machine is simple to install and operate. Highly Recommended!

Dear Bob,

I have been using your ionizer for a couple of years now and absolutely swear by it. I drink its water all day long and the health benefits have been immense.

Thanks again for your great promotion of this product.

Your health challenge: stomach problems and tiredness

How has your health changed: my awareness of needing to drink more water has drastically risen this last year simply because we have the ionizer. Also, the water tastes better and therefore I drink close to my daily need. I feel much more hydrated. My eyes aren't puffy anymore and my skin is tighter. In the mornings when I wake up, I don't have an upset stomach and feel more rested! Viva la Ionizer.

Thanks.

From,

Ignatius Tredoux

Dear Ryan,

Thank you for your time and diligence in assisting our family in the education and use of the water ionizer. I suspect we will have even greater results when we move the ionizer to our new kitchen later today, there it will be supplied by warm water. I have three families drinking the water on a regular basis and others taking it home from church twice a week . . .

I am personally feeling great, drinking a gallon of ionized water each day. My children did not drink much the first day, but are asking for water first thing in the morning and each carry their bottles with them throughout the day. We have nothing else to drink in our home. I plan to transition my daughter to your program as I realize her 52" - 54 lb. frame at age 8 will transform to an approximate 104 lb. adolescent in as little as 5 years! I know very few females who look forward to gaining 10 pounds a year as she does! Each pound will be healthy!

I believe people like things simple and yeah, simple does not always mean easy! This is, in a nutshell, my overwhelming excitement about your program. If we get the response I expect over the next few weeks. I will continue to personally spread the word about your program as best I can.

Thank You for helping America Achieve Great Health!

Sincerely,

Linda Klaassen
